

**TKO DOCK DOORS**

## **VC Series VertiCool**

### Cold Storage Doors

As the industry's first sectional door specifically designed for use with vertical-storing dock levelers, the VC Series VertiCool® Cold Storage Door answered the demand for an industrial door of this type. The TKO VertiCool provides superior energy benefits with a low cost of ownership.

## VC Series VertiCool Cold Storage Door

Specifically designed for Vertical  
Storing Levelers:

- Higher R-value requirements
- Higher windload requirements

### OPTIONS AND ACCESSORIES

#### Thermal Pane Rectangular Window

Provides visibility outside  
the cold storage facility for  
cold storage environments.

#### E-Lift CounterWeight

Adjustable system eliminates the  
need for counterbalance springs.

#### Bottom Brush Seal

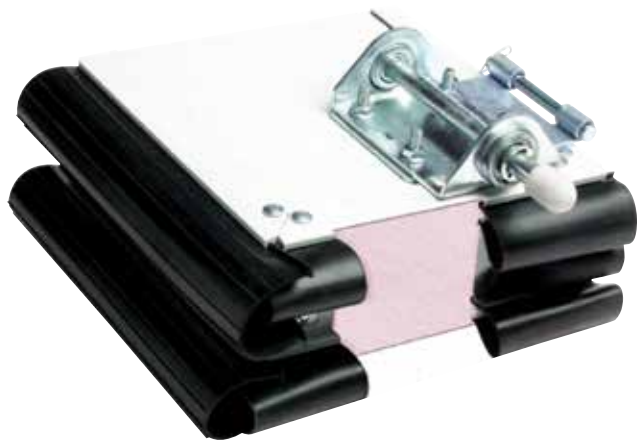

In addition to bottom loop seal  
for maximum perimeter seal.

#### Motor Operator

Built with convenience in mind,  
operators include a floor level  
chain hoist to ease manual  
operation in an emergency or  
power outage.

### CONSTRUCTION

**4" Thick Moisture Resistant Panel** Closed-cell foam core  
provides R-23 rated powder coated aluminum interior facing  
for consistent temperature control

- 4" thick closed cell XEPS foam panel provides R-23 for superior thermal protection.
- 48" high panels reduce the number of panel joints by 50% in comparison to industry-standard 24".
- Dual compression side bulb seals are mounted to door panel and removed from impact zone when door is open, preventing seals from sustaining damage.
- Patent-pending, heavy-duty, full opening height polymer thermal break track with 12 gauge galvanized steel guides.
- Polymer track wrapped with energy reflective foil fabric.
- Durable Powered Coated Aluminum panel interior skin is easy to clean and long-lasting.
- UV stabilized exterior painted aluminum skin.
- Dual overlapping header seal.
- Dual compression loop bottom seals.
- Unique heavy-duty fixed plunger reduces door maintenance.

## TKO Wind Load Package Sectional Knockout Door

The industry's most rugged door, providing  
total knockout protection for facilities with:

- Moderate to severe panel damage
- Moderate to severe track damage
- Hurricane susceptible locations

### CONSTRUCTION

- Durable powered coated aluminum interior skin.
- Heavy-duty, full opening height polymer thermal break track with 12 gauge galvanized steel guides.
- Unique heavy-duty fixed plunger reduces door maintenance.
- Slide locks with lockout pins, attached to the track, secure the door during high-wind events.
